

## Gobble.... Gobble.... Gobble.....

To some, the turkey's bizarre call is nothing more than a natural oddity. To Mike Joyner, it is one of nature's purest melodies.

Joyner, a veteran hunter and outdoorsman, recounts some of the many stories he has collected over his twelve years as a devoted turkey hunter in *Hills of Truxton: Stories & Travels of a Turkey Hunter*, a book as rare as a triple spurred Gobbler. Filled with colorful colloquialisms and enlightening anecdotes, it contains a decade's worth of turkey hunting wisdom. From tips and techniques to tall tales and turkey calls, Joyner has created an easily referenced text that will entertain as much as it educates.

*Hills of Truxton* makes a great gift for intrepid hunters and nature-lovers alike. Readers will love thumbing through its pages time and again, to re-read favorite stories and to explore the wealth of photographs and informative charts nestled like a wild hen within its pages.

"Each morning that we awake is a blessing in of itself...I have found those early spring mornings, sitting in the forests as the sun rises, to be my better days." –Mike Joyner
